Open-Source Enterprise Platform

Curated CNCF and open-source components. 10 building block portfolios. One Kubernetes-native platform. Deployed in hours, not years. 60-85% cost reduction vs proprietary alternatives.

BUILDING BLOCKS	PRODUCTS	COST SAVINGS	TIME TO PROD

Product Portfolio

OpenOva — Core K8s platform — security, observability, GitOps, mesh, policy, DR (28 components)

Cortex — Enterprise AI Hub — LLM serving, RAG, AI safety, observability (9 components)

Axon — SaaS LLM Gateway — managed AI inference, powers Specter agents

Specter — AI agents — self-healing, autonomous SOC/NOC, continuous compliance

Catalyst — Bootstrap wizard, Day-2 lifecycle manager, IDP, Workflow Explorer

Fingate — PSD2/FAPI open banking — Keycloak FAPI, metering, 6 banking services

Fabric — Event-driven data — Kafka, Flink, Temporal, Debezium, Iceberg, ClickHouse

Relay — Enterprise communication — email, video/audio, team chat, WebRTC

Exodus — Structured migration — assessment, AI roadmap, zero-downtime migration

Platform Architecture

CORE PLATFORM

Networking
OpenTofu · Crossplane · Cilium · Envoy · Coraza · ExternalDNS · k8gb

Security
cert-manager · Ext Secrets · OpenBao · Trivy · Falco · Sigstore · Kyverno

À LA CARTE

Data
CNPG · FerretDB · Strimzi · Valkey · ClickHouse

AI / ML
KServe · Knative · vLLM · Milvus · Neo4j · LibreChat · BGE · Guardrails · LangFuse

hello@openova.io

AI-Native Operations — Specter

▊ DevSecOps Agent
Vulnerability triage, SBOM analysis, policy enforcement, supply chain verification

▊ FinOps Agent
Resource right-sizing, cost attribution, license tracking, chargeback reporting

⚙ DevOps Agent
Deployment orchestration, GitOps health, drift detection, rollback management

▊ Compliance Agent
Regulatory mapping (SOC2, ISO27001, PCI-DSS), audit evidence, continuous verification

▊ SRE Agent
SLO tracking, incident response, capacity planning, performance optimization

▊ AI Ops Agent
Model serving health, inference SLOs, GPU utilization, safety guardrail monitoring

Projected TCO Comparison (Annual, ME bank reference case)

CATEGORY	TRADITIONAL	OPENOVA	SAVINGS
Platform + Observability + Security + Identity	€600K-1.35M	€50-200K	60-85%
Platform Team (5-10 eng) + SOC/NOC (5-10 eng)	€1M-2.2M	€300-600K	65-75%
External Consulting	€200-500K	Included	100%
Total Annual	**€1.8M-4.05M**	**€460K-1.15M**	**60-85%**

Key Migration Paths (Exodus)

FROM	TO	ANNUAL SAVINGS
Datadog	Grafana Stack	€200-400K
Splunk	Loki + Grafana	€150-300K
Red Hat OpenShift	OpenOva	€150-300K
Oracle Database	CNPG (PostgreSQL)	€100-300K
Prisma Cloud	Falco + SIEM + Specter	€100-200K
Auth0 / Okta	Keycloak	€50-150K

Engagement Model

01 — Discover
Legacy assessment, TCO analysis, migration roadmap. Weeks 1-2.

02 — Transform
Platform deployment, workload migration, team enablement. Weeks 3-12.

03 — Operate
24/7 Specter operations, Expert Network, continuous updates. Ongoing.
